Preface

The Job Accommodation Network (JAN) is funded by a contract with the Office of Disability Employment Policy, U.S. Department of Labor. JAN makes documents available with the understanding that the information be used solely for educational purposes. The information is not intended to be legal or medical advice. If legal or medical advice is needed, appropriate legal or medical services should be contacted.

JAN does not endorse or recommend any products or services mentioned in this publication. Although every effort is made to update resources, JAN encourages contacting product manufacturers/vendors and service providers directly to ensure that they meet the intended purposes. This guarantees that the most up-to-date information is obtained.

The following document is not copyrighted and reproduction is encouraged. Section 105 of the Copyright Law provides that no copyright protection is available for works created by the U.S. Government. Therefore, all works created by JAN fall under this provision. While individuals may use such work with impunity, individuals may not claim copyright in the original government work, only in the original material added. Individuals may access the full text of the law from the U.S. Copyright Office https://www.loc.gov/copyright. Please note that specific information cited by JAN may be copyrighted from other sources. Citing secondary sources from a JAN publication may violate another organization's or individual's copyright. Permission must be obtained from these sources on a case-by-case basis. When using JAN materials, JAN asks that the materials not be reproduced for profit, that the tone and substance of the information are not altered, and that proper credit is given to JAN as the source of the information. For further information regarding this or any other document provided by JAN, please contact JAN.

Updated 01/24/2019.
JAN’S Accommodation and Compliance Series

Introduction

JAN's Accommodation and Compliance Series is designed to help employers determine effective accommodations and comply with Title I of the Americans with Disabilities Act (ADA). Each publication in the series addresses a specific medical condition and provides information about the condition, ADA information, accommodation ideas, and resources for additional information.

The Accommodation and Compliance Series is a starting point in the accommodation process and may not address every situation. Accommodations should be made on a case by case basis, considering each employee’s individual limitations and accommodation needs. Employers are encouraged to contact JAN to discuss specific situations in more detail.

For information on assistive technology and other accommodation ideas, visit JAN's Searchable Online Accommodation Resource (SOAR) at https://askjan.org/soar.

Information about Eating Disorders

A significant number of men and women experience a eating disorders at some time during their lives. Many cases are probably not reported. Many more people may not meet the criteria for an eating disorder diagnosis, but have difficulty around dissatisfaction with their bodies and distorted beliefs and behaviors about eating. Eating disorders are characterized by a continual disturbance of eating or eating-related behavior that results in changes in eating patterns that significantly impairs physical and mental health. Although there are many eating disorders, JAN hears about those that are most prevalent:

- Anorexia nervosa is a serious, potentially life-threatening eating disorder characterized by restriction of energy intake (food consumption) and excessive weight loss. Symptoms include resistance to maintaining body weight at or above a minimally normal weight for age and height; intense fear of weight gain; disturbance in the experience of body weight or shape; undue influence of weight or shape on self-evaluation, or denial of the seriousness of low body weight; and loss of menstrual periods in girls and women post-puberty. Anorexia nervosa typically appears in early to mid-adolescence and it has one of the highest death rates of any mental health condition.
- **Bulimia nervosa** is a serious, potentially life-threatening eating disorder characterized by a cycle of bingeing and compensatory behaviors designed to undo or compensate for the effects of binge eating. Its presence is indicated by regular intake of large amounts of food accompanied by a sense of loss of control over eating behavior; regular use of inappropriate compensatory behaviors such as self-induced vomiting, laxative or diuretic abuse, fasting, and/or obsessive or compulsive exercise; and extreme concern with body weight and shape. Bulimia nervosa is frequently associated with symptoms of depression and changes in social adjustment.

- **Binge eating disorder (BED)** is a type of eating disorder not otherwise specified and is characterized by recurrent binge eating without the regular use of compensatory measures to counter the binge eating. It is characterized by frequent episodes of eating large quantities of food in short periods of time; feeling out of control over eating behavior during the episode; and feeling depressed, guilty, or disgusted by the behavior. Behavioral indicators of BED include eating when not hungry, eating alone because of embarrassment over quantities consumed and eating until uncomfortably full. BED is often associated with symptoms of depression.

JAN's Effective Accommodation Practices (EAP) Series: Executive Functioning Deficits is a publication detailing accommodations for individuals with limitations related to executive functioning. These ideas may be helpful in determining accommodations.

**Eating Disorders and the Americans with Disabilities Act**

The ADA does not contain a list of medical conditions that constitute disabilities. Instead, the ADA has a general definition of disability that each person must meet. A person has a disability if he/she has a physical or mental impairment that substantially limits one or more major life activities, a record of such an impairment, or is regarded as having an impairment. For more information about how to determine whether a person has a disability under the ADA, see How to Determine Whether a Person Has a Disability under the Americans with Disabilities Act Amendments Act (ADAAA).

**Accommodating Employees with Eating Disorders**

People with eating disorders may develop some of the limitations discussed below, but seldom develop all of them. Also, the degree of limitation will vary among individuals. Be aware that not all people with eating disorders will need accommodations to perform their jobs and many others may only need a few accommodations. The following is only a sample of the possibilities available. Numerous other accommodation solutions may exist.
Questions to Consider:

1. What limitations is the employee experiencing?
2. How do these limitations affect the employee and the employee's job performance?
3. What specific job tasks are problematic as a result of these limitations?
4. What accommodations are available to reduce or eliminate these problems? Are all possible resources being used to determine possible accommodations?
5. Has the employee been consulted regarding possible accommodations?
6. Once accommodations are in place, would it be useful to meet with the employee to evaluate the effectiveness of the accommodations and to determine whether additional accommodations are needed?
7. Do supervisory personnel and employees need training?

Accommodation Ideas:

Limitations

Attentiveness/Concentration
- Alternative Lighting
- Applications (apps)
- Apps for Memory
- Behavior Modification Techniques
- Cubicle Doors, Shields, and Shades
- Electronic Organizers
- Environmental Sound Machines / Tinnitus Maskers / White Noise Machines
- Flexible Schedule
- Full Spectrum or Natural Lighting Products
- Job Coaches
- Job Restructuring
- Marginal Functions
- Modified Break Schedule
- Noise Canceling Headsets
• Sound Absorption and Sound Proof Panels
• Task Separation
• Telework, Work from Home, Working Remotely
• Timers and Watches
• Uninterrupted "Off" Work Time
• Verbal Cues
• Wall Calendars and Planners
• Worksite Redesign / Modified Workspace
• Written Instructions

Control of Anger/Emotions
• Apps for Miscellaneous Mental Health / Control of Anger & Emotions
• Behavior Modification Techniques
• Counseling/Therapy
• Disability Awareness/Etiquette Training
• Employee Assistance Program
• Environmental Sound Machines / Tinnitus Maskers / White Noise Machines
• Flexible Schedule
• Job Restructuring
• Simulated Skylights and Windows
• Sun Boxes and Lights
• Supervisory Methods
• Support Animal
• Support Person

Decreased Stamina/Fatigue
• Aide/Assistant/Attendant
• Job Restructuring
• Periodic Rest Breaks
• Telework, Work from Home, Working Remotely
• Worksite Redesign / Modified Workspace

Executive Functioning Deficits
- Apps for Concentration
- Checklists
- Color Coded System
- Cubicle Doors, Shields, and Shades
- Environmental Sound Machines / Tinnitus Maskers / White Noise Machines
- Form Generating Software
- Job Coaches
- Job Restructuring
- Marginal Functions
- Modified Break Schedule
- Noise Canceling Headsets
- Recorded Directives, Messages, Materials
- Sound Absorption and Sound Proof Panels
- Speech Recognition Software
- Timers and Watches
- Wall Calendars and Planners
- Written Instructions

Stress Intolerance
- Apps for Anxiety and Stress
- Behavior Modification Techniques
- Counseling/Therapy
- Environmental Sound Machines / Tinnitus Maskers / White Noise Machines
- Flexible Schedule
- Job Restructuring
- Marginal Functions
- Modified Break Schedule
- Supervisory Methods
- Support Animal
- Support Person
Work-Related Functions

Policies

- Additional Training Time / Training Refreshers
- Aide/Assistant/Attendant
- Flexible Schedule
- Marginal Functions
- Modified Break Schedule
- Periodic Rest Breaks
- Policy Modification
- Reassignment
- Service Animal
- Supervisory Methods
- Support Animal
- Telework, Work from Home, Working Remotely
Situations and Solutions:

A nineteen-year-old grocery store worker who mainly completed on floor tasks, such as pricing and packaging, had been complaining of feeling very exhausted from standing and walking all day long. She disclosed to her employer that she was seeing a counselor for an eating disorder and the counselor suggested that she request an accommodation to help with her fatigue while she addressed her health needs. She requested to work as a cashier and to be allowed to sit while working. Because one of the grocery store's cashiers recently resigned, the employer was able to reassign her to this position and allowed her to sit while she worked.

A customer service representative for a physician's office is currently undergoing treatment for an eating disorder. One of his therapeutic tasks is to integrate many small meals into his daily routine. His office has a strictly-enforced policy that employees can only eat in the break room, out of sight from the patients. In order to keep from disrupting his production level and to aid in his recovery, his supervisor modified the workplace policy and allowed the employee to eat snacks at his desk.

A bank branch manager started receiving complaints from multiple employees that one of the company's bank tellers was taking excessive bathroom breaks and rarely requested backup. On certain days, she left multiple customers waiting for over 15 minutes while other tellers were waiting on customers. After witnessing her behavior himself, he decided to give her a warning for inappropriate use of time. Upon receiving the warning, the employee disclosed that she has experienced bulimia for over a year and wanted to start seeing a counselor. She requested an accommodation of a modified work schedule in order to see a counselor two times per week. Although the employer did not have to lift the warning, the employer granted the accommodation so the employee could comply with company policies in the future.

Products

There are numerous products that can be used to accommodate people with limitations. JAN's Searchable Online Accommodation Resource at https://askjan.org/soar is designed to let users explore various accommodation options. Many product vendor lists are accessible through this system; however, JAN provides these lists and many more that are not available on the Web site upon request. Contact JAN directly if you have specific accommodation situations, are looking for products, need vendor information, or are seeking a referral.
