Preface

The Job Accommodation Network (JAN) is funded by a contract with the Office of Disability Employment Policy, U.S. Department of Labor. JAN makes documents available with the understanding that the information be used solely for educational purposes. The information is not intended to be legal or medical advice. If legal or medical advice is needed, appropriate legal or medical services should be contacted.

JAN does not endorse or recommend any products or services mentioned in this publication. Although every effort is made to update resources, JAN encourages contacting product manufacturers/vendors and service providers directly to ensure that they meet the intended purposes. This guarantees that the most up-to-date information is obtained.

The following document is not copyrighted and reproduction is encouraged. Section 105 of the Copyright Law provides that no copyright protection is available for works created by the U.S. Government. Therefore, all works created by JAN fall under this provision. While individuals may use such work with impunity, individuals may not claim copyright in the original government work, only in the original material added. Individuals may access the full text of the law from the U.S. Copyright Office <http://www.loc.gov/copyright>. Please note that specific information cited by JAN may be copyrighted from other sources. Citing secondary sources from a JAN publication may violate another organization's or individual's copyright. Permission must be obtained from these sources on a case-by-case basis. When using JAN materials, JAN asks that the materials not be reproduced for profit, that the tone and substance of the information are not altered, and that proper credit is given to JAN as the source of the information. For further information regarding this or any other document provided by JAN, please contact JAN.

Updated 11/12/2018.

JAN'S Accommodation and Compliance Series

Introduction

JAN's Accommodation and Compliance Series is designed to help employers determine effective accommodations and comply with Title I of the Americans with Disabilities Act (ADA). Each publication in the series addresses a specific medical condition and provides information about the condition, ADA information, accommodation ideas, and resources for additional information.

The Accommodation and Compliance Series is a starting point in the accommodation process and may not address every situation. Accommodations should be made on a case by case basis, considering each employee's individual limitations and accommodation needs. Employers are encouraged to contact JAN to discuss specific situations in more detail.

For information on assistive technology and other accommodation ideas, visit JAN's Searchable Online Accommodation Resource (SOAR) at <http://askjan.org/soar>.

Information about Back Impairment

Back injuries account for many of the musculoskeletal disorders in the workplace. The major symptom of most back impairments is back pain, which can be localized or widespread radiating from a central point in the back. If ligaments and muscles are weak then discs in the lower back can become weakened. With excessive lifting, or a sudden fall, a disc can rupture. With years of back abuse, or with aging, the discs may simply wear out and a person may live with chronic pain for several years. However, back pain caused by a muscle strain or a ligament sprain will normally heal within a short time and may never cause further problems. Poor physical condition, poor posture, lack of exercise, and excessive body weight contribute to the number and severity of sprains and strains. Degeneration of the spine, due to aging, is also a major contributor to back pain.

Back Impairment and the Americans with Disabilities Act

The ADA does not contain a list of medical conditions that constitute disabilities. Instead, the ADA has a general definition of disability that each person must meet. A person has a disability if he/she has a physical or mental impairment that substantially limits one or more major life activities, a record of such an impairment, or is regarded as having an impairment. For more information about how to determine whether a person has a disability under the ADA, see [How to Determine Whether a Person Has a Disability under the Americans with Disabilities Act Amendments Act \(ADAAA\)](#).

Accommodating Employees with Back Impairment

People with back impairments may develop some of the limitations discussed below, but seldom develop all of them. Also, the degree of limitation will vary among individuals. Be aware that not all people with back impairments will need accommodations to perform their jobs and many others may only need a few accommodations. The following is only a sample of the possibilities available. Numerous other accommodation solutions may exist.

Questions to Consider:

1. What limitations is the employee experiencing?
2. How do these limitations affect the employee and the employee's job performance?
3. What specific job tasks are problematic as a result of these limitations?
4. What accommodations are available to reduce or eliminate these problems? Are all possible resources being used to determine possible accommodations?
5. Has the employee been consulted regarding possible accommodations?
6. Once accommodations are in place, would it be useful to meet with the employee to evaluate the effectiveness of the accommodations and to determine whether additional accommodations are needed?
7. Do supervisory personnel and employees need training?

Accommodation Ideas:

Limitations

Carrying

- Accessories for Scooters
- Adjustable Exam Tables
- Aerial Lifts
- Ball Transfer Tables
- Carts
- Compact Material Handling
- Compact Mobile Cranes
- Ergonomic Equipment
- Evacuation Devices

- Independent Living Aids
- Lift Gates
- Lifting Aids
- Lightweight Ladders
- Modified Break Schedule
- Patient Lifts (General)
- Periodic Rest Breaks
- Stairclimbing Handtrucks
- Transfer Aids
- Transfer Sheets
- Truck Mounted Cranes
- Vacuum Lifts
- Walk-up Changing Tables
- Wheelchair Accessories
- Winches and Chain Hoists

Climbing

- Aerial Lifts
- Elevators
- Evacuation Devices
- Extended Tractor Steps
- Folding Steps
- Large-Rated Ladders
- Large-Rated Small Step Ladders
- Large-Rated Wheelchair Lifts
- Stair Assists
- Stair Lifts

Decreased Stamina/Fatigue

- Aide/Assistant/Attendant
- Anti-fatigue Matting
- Elevating Wheelchairs

- Ergonomic Assessments
- Ergonomic Equipment
- Job Restructuring
- Periodic Rest Breaks
- Scooters
- Stand-lean Stools
- Telework, Work from Home, Working Remotely
- Walkers
- Wearable Anti-fatigue Matting
- Wheelchairs
- Worksite Redesign / Modified Workspace

Lifting

- Agriculture/Farm
 - Animal Lift Tables
 - Carts
 - Compact Mobile Cranes
- Industrial
 - Aerial Lifts
 - Ball Transfer Tables
 - Battery Powered Lift Tables
 - Drum Handling
 - Engine Lifts and Lift Plates
 - Lift Gates
 - Lift Tables
 - Rolling Safety Ladders
 - Stairclimbing Handtrucks
 - Truck Mounted Cranes
 - Vacuum Lifts
 - Vehicle Lifts and Manipulators
 - Winches and Chain Hoists
 - Work Platforms

- Office or Retail Goods
 - Carts
 - Compact Material Handling
 - Ergonomic Assessments
 - Ergonomic Equipment
 - Height Adjustable Table Legs
 - Low Task Chair
 - Stairclimbing Handtrucks
- Other
 - Drywall and Wallboard Lifts
 - Ergonomic Equipment
 - Independent Living Aids
 - Job Restructuring
 - Lifters and Carriers for Mobility Aids
 - Lifting Aids
 - Manhole Cover Lifts
 - Periodic Rest Breaks
 - Power Lift IV Stands
 - Proper Lifting Techniques
- People
 - Accessible Baby Changing Stations
 - Adjustable Exam Tables
 - Adult Changing Tables
 - Bath Chairs
 - Evacuation Devices
 - Large-Rated Wheelchair Lifts
 - Patient Lifts (General)

Pain

- Industrial
 - Adjustable Workstations for Industrial Settings
 - Anti-fatigue Matting

- Anti-vibration Gloves
- Anti-Vibration Seats
- Anti-vibration Tool Wraps
- Carts
- Ergonomic Assessments
- Ergonomic Equipment
- Fans
- Stand-lean Stools
- Wearable Anti-fatigue Matting
- Workstation Space Heaters
- Office Equipment
 - Adjustable Workstations for Office Settings
 - Alternative Keyboards
 - Alternative Mice
 - Anti-fatigue Matting
 - Automatic Door Openers
 - Carts
 - Chairs with Head Support
 - Compact Material Handling
 - Ergonomic and Adjustable Office Chairs
 - Ergonomic Assessments
 - Ergonomic Equipment
 - Fans
 - Forearm Supports
 - Gooseneck and Other Telephone Holders
 - Headsets
 - Scribe/Notetaker
 - Scooters
 - Speech Recognition Software
 - Stand-lean Stools
 - Supine Workstations

- Wearable Anti-fatigue Matting
- Worksite Redesign / Modified Workspace
- Workstation Space Heaters
- Writing Aids
- Other
 - Aide/Assistant/Attendant
 - Flexible Schedule
 - Modified Break Schedule
 - Service Animal
 - Telework, Work from Home, Working Remotely

Pushing/Pulling

- Automated Filing Systems
- Automatic Door Openers
- Ball Transfer Tables
- Cart Dumpers
- Carts
- Compact Material Handling
- Ergonomic and Pneumatic Tools
- Ergonomic Equipment
- Janitorial Carts
- Lift Tables
- Linen Carts
- Motorized Carts
- Multi-Purpose Carts
- Patient Lifts (General)
- Power Assist for Manual Wheelchairs
- Stairclimbing Handtrucks
- Tool Balancers
- Vacuum Lifts
- Wheelchair Push Bars
- Wheelchair Push Extension Handles

Sitting

- Wheelchair Pushers
- Adjustable Pedicure Chairs
- Adjustable Workstations for Industrial Settings
- Adjustable Workstations for Office Settings
- Chairs and Stools for Medical Services
- Clean Room Stools
- Ergonomic and Adjustable Office Chairs
- Ergonomic Assessments
- Ergonomic Equipment
- Forward Leaning Chairs
- Headsets
- Large-Rated Chairs
- Low Task Chair
- Periodic Rest Breaks
- Stand-lean Stools
- Supine Workstations
- Treadmill / Pedal Workstations

Walking

- Aide/Assistant/Attendant
- All-Terrain Scooters
- All-Terrain Wheelchairs
- Anti-fatigue Matting
- Foldable / Transport Wheelchairs
- Large-Rated Scooters
- Large-Rated Wheelchairs
- Personal Transportation and Mobility Products
- Reclining Wheelchairs
- Rollators and Rolling Walkers
- Scooters

- Scooters for Small Stature
- Telework, Work from Home, Working Remotely
- Walkers
- Walkers for Tall Individuals
- Walkers with Seats
- Wearable Anti-fatigue Matting
- Wheelchairs
- Wheelchairs for Small Stature
- Worksite Redesign / Modified Workspace

Work-Related Functions

Move Items/People

- Adjustable Exam Tables
- Aerial Lifts
- Animal Lift Tables
- Ball Transfer Tables
- Battery Powered Lift Tables
- Carts
- Compact Material Handling
- Compact Mobile Cranes
- Lifting Aids
- Multi-Purpose Carts
- Proper Lifting Techniques
- Vacuum Lifts
- Vacuum Pickup Tools
- Walk-up Changing Tables

Parking

- Flexible Schedule
- Telework, Work from Home, Working Remotely
- Wheelchairs

Work Site Access

- Accessible Toilets and Toilet Seats
- Adjustable Workstations for Office Settings
- Alternative Locks
- Anti-fatigue Matting
- Braille and/or ADA Signage
- Building Accessibility Products
- Door Knob Grips and Handles
- Flexible Schedule
- Portable Ramps
- Ramps
- Scooters
- Service Animal
- Support Animal
- Telework, Work from Home, Working Remotely
- Wearable Anti-fatigue Matting
- Wheelchair Lifts
- Wheelchairs
- Worksite Redesign / Modified Workspace

Work Station Access

- Adjustable and Ergonomic School Desks and Equipment
- Adjustable Desk Top Workstations for Office Settings
- Adjustable Workstations for Industrial Settings
- Anti-fatigue Matting
- Articulating Keyboard Trays
- Assist Lift Cushions
- Chair Mats
- Chairs for Little People
- Chairs for People who are Tall
- Dual Monitors
- Elevating Lift and Office Chairs
- Ergonomic and Adjustable Office Chairs

- Ergonomic Equipment
- Expanded Keyboards
- Forearm Supports
- Forward Leaning Chairs
- Large-Rated Chairs
- Monitor Mirrors
- Monitor Risers
- Mousing Surfaces
- Stand-lean Stools
- Supine Workstations
- Work Platforms
- Zero Gravity (reclining) Chairs

Situations and Solutions:

A volunteer at a food bank had a lifting restriction from a back condition and had trouble moving heavy donation deliveries to the sorting area.

A supply of small containers was provided so he could divide the deliveries into smaller amounts for sorting.

A meat processor with a back impairment had difficulty lifting materials from a storage area to his work area.

The inspector was accommodated with a cart and lifts.

A chemical process plant worker was limited in his ability to turn large wheel valves due to a back injury.

The worker was accommodated with a specialty tool designed to decrease torque on wheel valve handles.

A systems administrator with a back impairment is required to move, lift, and carry computers throughout the office.

The person was accommodated with a compact, adjustable height lifting device with straps to secure the load.

A hotel manager with a back condition was having problems working full days.

She experienced pain after being on her feet for long periods of time. As a reasonable accommodation, the agency provided a flexible schedule. The employer reported the accommodation was extremely effective, eliminating the need of training someone else to do the job and improving morale.

A mechanic with a bending restriction due to a low back impairment has problems accessing the engine compartment and low task areas of vehicles.

The mechanic was accommodated with a tire lift, a mechanic's low task chair, and a specialty creeper designed to support the body while accessing engine compartments.

A clerical worker with scoliosis has sitting and standing restrictions.

Because the worker is required to work at a desk a majority of the time, the worker was accommodated with an ergonomic workstation evaluation, ergonomic chair, and a sit/stand computer workstation.

A grocery check-out person had a standing restriction due to a back injury.

He was accommodated with a sit/lean stool and anti-fatigue mats.

A customer service agent for an insurance company was pregnant and experiencing significant leg and back pain when sitting for long periods of time.

She also needed to use the restroom frequently. The employer provided an adjustable workstation to enable the employee to alternate between sitting and standing positions. The employer also allowed her to take more frequent rest breaks by dividing her

existing thirty-minutes of break time into several smaller increments of time so she could use the restroom as-needed.

Products

There are numerous products that can be used to accommodate people with limitations. JAN's Searchable Online Accommodation Resource at <http://askjan.org/soar> is designed to let users explore various accommodation options. Many product vendor lists are accessible through this system; however, JAN provides these lists and many more that are not available on the Web site upon request. Contact JAN directly if you have specific accommodation situations, are looking for products, need vendor information, or are seeking a referral.
