Employment Policy, U.S. Department of Labor

Preface

The Job Accommodation Network (JAN) is funded by a contract with the Office of Disability Employment Policy, U.S. Department of Labor. JAN makes documents available with the understanding that the information be used solely for educational purposes. The information is not intended to be legal or medical advice. If legal or medical advice is needed, appropriate legal or medical services should be contacted.

JAN does not endorse or recommend any products or services mentioned in this publication. Although every effort is made to update resources, JAN encourages contacting product manufacturers/vendors and service providers directly to ensure that they meet the intended purposes. This guarantees that the most up-to-date information is obtained.

The following document is not copyrighted and reproduction is encouraged. Section 105 of the Copyright Law provides that no copyright protection is available for works created by the U.S. Government. Therefore, all works created by JAN fall under this provision. While individuals may use such work with impunity, individuals may not claim copyright in the original government work, only in the original material added. Individuals may access the full text of the law from the U.S. Copyright Office <http://www.loc.gov/copyright>. Please note that specific information cited by JAN may be copyrighted from other sources. Citing secondary sources from a JAN publication may violate another organization's or individual's copyright. Permission must be obtained from these sources on a case-by-case basis. When using JAN materials, JAN asks that the materials not be reproduced for profit, that the tone and substance of the information are not altered, and that proper credit is given to JAN as the source of the information. For further information regarding this or any other document provided by JAN, please contact JAN.

Updated 11/27/2018.

JAN'S Accommodation and Compliance Series

Introduction

JAN's Accommodation and Compliance Series is designed to help employers determine effective accommodations and comply with Title I of the Americans with Disabilities Act (ADA). Each publication in the series addresses a specific medical condition and provides information about the condition, ADA information, accommodation ideas, and resources for additional information.

The Accommodation and Compliance Series is a starting point in the accommodation process and may not address every situation. Accommodations should be made on a case by case basis, considering each employee's individual limitations and accommodation needs. Employers are encouraged to contact JAN to discuss specific situations in more detail.

For information on assistive technology and other accommodation ideas, visit JAN's Searchable Online Accommodation Resource (SOAR) at <http://askjan.org/soar>.

Information about Epilepsy/Seizure Disorder

Epilepsy is the tendency to have repeated seizures that originate in the brain. There are several types of possible seizures that range from losing consciousness and massive muscles jerks to blank stares. For example, generalized tonic clonic seizures, also called grand mal seizures, look like the individual suddenly cries or falls; the individual may lose consciousness. On the other hand, generalized absence seizures or petit mal seizures look like a blank stare, beginning and ending abruptly, lasting only a few seconds.

JAN's [Effective Accommodation Practices \(EAP\) Series: Executive Functioning Deficits](#) is a publication detailing accommodations for individuals with limitations related to executive functioning. These ideas may be helpful in determining accommodations.

Plan of Action:

In the event that a seizure does occur in the workplace, it is wise to be prepared. Preparation begins with a plan of action.

Can you remember back to elementary school? Think back to practice for a fire drill. Everyone in the entire school knew the plan and was prepared for the fire drill. Everyone knew who was in charge, what responsibilities each person had, how quickly to respond to an alarm, and how to exit the building. That type of preparedness made the fire drill work efficiently.

A plan of action is very similar to an elementary school fire drill. A plan of action is an emergency preparedness tool. It can be used to prepare for, or respond to, emergency situations that arise when a person has a seizure on the job. A plan of action can be created with the employee and employer and can include information such as:

- emergency contact information
- visual or audible warning signs
- how/when to provide on-site medical assistance
- how/when to call 9-1-1
- how to provide environmental support
- who to designate as emergency responders
- who to go to for help
- how to educate co-workers about epilepsy

A properly implemented plan of action may reduce the confusion, panic, or fear that co-workers or customers experience if they see an employee having a seizure on the job. When the plan of action is “in action,” one designated person calls a spouse or emergency contact. One designated person watches over the employee. No one provides incorrect or unnecessary medical assistance (CPR, for example). No one overreacts to the emergency because everyone is prepared for it, can identify it, and respond appropriately to it.

A sample plan of action is provided. Please use it as guidance on how to write a plan of action. Employers are not required by the ADA to use the following form, nor are employees with epilepsy required by the ADA to use the form.

[Sample Plan of Action](#)

Warning Signs for Oncoming Seizure:

- Using his hand or arm, gently lead John to designated safe area.
- If necessary, help John into a seated or laying position.
- If necessary, loosen any restrictive clothing (such as a tie or scarf).
- During seizure (which lasts from 2 - 5 minutes), John will not need medical attention.
- When seizure subsides, offer John a cool cloth for his face or a cool drink.

- If John is disoriented, identify yourself and identify his location/surroundings.

Additional Comments:

How to Determine Whether a Person Has a Disability under the Americans with Disabilities Act Amendments Act (ADAAA).

Accommodating Employees with Epilepsy/Seizure Disorder

People with epilepsy may develop some of the limitations discussed below, but seldom develop all of them. Also, the degree of limitation will vary among individuals. Be aware that not all people with epilepsy will need accommodations to perform their jobs and many others may only need a few accommodations. The following is only a sample of the possibilities available. Numerous other accommodation solutions may exist.

Questions to Consider:

1. What limitations is the employee experiencing?
2. How do these limitations affect the employee and the employee's job performance?
3. What specific job tasks are problematic as a result of these limitations?
4. What accommodations are available to reduce or eliminate these problems? Are all possible resources being used to determine possible accommodations?
5. Has the employee been consulted regarding possible accommodations?
6. Once accommodations are in place, would it be useful to meet with the employee to evaluate the effectiveness of the accommodations and to determine whether additional accommodations are needed?
7. Do supervisory personnel and employees need training?

Accommodation Ideas:

Limitations

Balancing

- Aerial Lifts
- Fall Protection
- Padded Edging
- Personal Safety and Fall Alert Devices
- Rolling Safety Ladders

Decreased Stamina/Fatigue

- Job Restructuring
- Periodic Rest Breaks
- Task Rotation
- Telework, Work from Home, Working Remotely
- Worksite Redesign / Modified Workspace

Executive Functioning Deficits

- Apps for Concentration
- Checklists
- Color Coded System
- Cubicle Doors, Shields, and Shades
- Environmental Sound Machines / Tinnitus Maskers / White Noise Machines
- Form Generating Software
- Job Coaches
- Job Restructuring
- Marginal Functions
- Modified Break Schedule
- Noise Canceling Headsets
- Recorded Directives, Messages, Materials
- Sound Absorption and Sound Proof Panels
- Speech Recognition Software

- Timers and Watches
- Wall Calendars and Planners
- Written Instructions

Managing Time

- Applications (apps)
- Apps for Organization/ Time Management
- Color Coded System
- Marginal Functions
- PDAs, Notetakers, and Laptops
- Reminders
- Timers and Watches
- Wall Calendars and Planners
- Written Instructions

Memory Loss

- Additional Training Time / Training Refreshers
- Apps for Memory
- Electronic Organizers
- Memory Software
- Recorded Directives, Messages, Materials
- Reminders
- Support Person
- Verbal Cues
- Wall Calendars and Planners
- Written Instructions

Photosensitivity

- Alternative Lighting
- Anti-Glare Filters for Fluorescent Lights
- Cubicle Doors, Shields, and Shades
- Fluorescent Light Tube Covers
- Full Spectrum or Natural Lighting Products

- LED Light Filters
- Lighting Gel Filters

Stress Intolerance

- Apps for Anxiety and Stress
- Behavior Modification Techniques
- Counseling/Therapy
- Environmental Sound Machines / Tinnitus Maskers / White Noise Machines
- Flexible Schedule
- Job Restructuring
- Marginal Functions
- Modified Break Schedule
- Supervisory Methods
- Support Animal
- Support Person

Unable to Work Alone

- Disability Awareness/Etiquette Training
- Flexible Schedule
- Job Restructuring
- Supervisory Methods
- Support Animal
- Support Person

Work-Related Functions

Policies

- Additional Training Time / Training Refreshers
- Aide/Assistant/Attendant
- Flexible Schedule
- Marginal Functions
- Modified Break Schedule
- Periodic Rest Breaks

- Policy Modification
- Reassignment
- Service Animal
- Supervisory Methods
- Support Animal
- Telework, Work from Home, Working Remotely

Safety Standards

- Additional Training Time / Training Refreshers
- Aerial Lifts
- Alerting Devices
- Body Protection
- Break Reminder Software
- Cut and Puncture Resistant Gloves and Sleeves
- Designated Responders
- Fall Protection
- High Contrast/High Visibility Paint and Tape
- Machine Guards and Shields
- Rolling Safety Ladders
- Seat Belts & Seat Belt Extenders
- Stair Tread/Tape
- Personal Safety and Fall Alert Devices
- Workplace Safety

Situations and Solutions:

A student with epilepsy used hedge-cutters and other landscaping tools in a training program.

For safety, JAN suggested steel-toed shoes, shin guards, and hand protection.

A welder with epilepsy wanted to make his work area safe when he had a seizure.

JAN suggested a welder's helmet with additional padding and using a safety switch on his welding machines.

An administrator with epilepsy needed an emergency communication system to inform someone that she had a seizure.

JAN suggested using a two way radio.

An engineer with epilepsy had difficulty managing multiple tasks.

JAN suggested color-coding on-going projects, using wall charts to track progress, and prioritizing tasks for the employee.

Charmaine is an employee with epilepsy who needs to disclose her disability and ask for an accommodation of a flexible schedule while she adjusts to new medication.

She is having difficulty waking and has been late three days in a row. She is wary of disclosing her medical condition, but doesn't want to get into disciplinary action. Charmaine decides to disclose and provides medical documentation. Since her work doesn't depend on or affect others, the employer found no hardship to flex her daily schedule as long as she gets her time in between the core business hours of 8:00 am to 6:00 pm.

An educational consultant with epilepsy had driving restrictions.

JAN suggested allowing another team member to drive to site-visit locations and telework whereby she could communicate via e-mail and submit paperwork electronically.

Products

There are numerous products that can be used to accommodate people with limitations. JAN's Searchable Online Accommodation Resource at <http://askjan.org/soar> is designed to let users explore various accommodation options. Many product vendor lists are accessible through this system; however, JAN provides these lists and many more that are not available on the Web site upon request. Contact JAN directly if you have specific accommodation situations, are looking for products, need vendor information, or are seeking a referral.
