Preface

The Job Accommodation Network (JAN) is funded by a grant from the Office of Disability Employment Policy, U.S. Department of Labor. JAN makes documents available with the understanding that the information be used solely for educational purposes. The information is not intended to be legal or medical advice. If legal or medical advice is needed, appropriate legal or medical services should be contacted.

JAN does not endorse or recommend any products or services mentioned in this publication. Although every effort is made to update resources, JAN encourages contacting product manufacturers/vendors and service providers directly to ensure that they meet the intended purposes. This guarantees that the most up-to-date information is obtained.

The following document is not copyrighted and reproduction is encouraged. Section 105 of the Copyright Law provides that no copyright protection is available for works created by the U.S. Government. Therefore, all works created by JAN fall under this provision. While individuals may use such work with impunity, individuals may not claim copyright in the original government work, only in the original material added. Individuals may access the full text of the law from the U.S. Copyright Office https://www.loc.gov/copyright. Please note that specific information cited by JAN may be copyrighted from other sources. Citing secondary sources from a JAN publication may violate another organization's or individual's copyright. Permission must be obtained from these sources on a case-by-case basis. When using JAN materials, JAN asks that the materials not be reproduced for profit, that the tone and substance of the information are not altered, and that proper credit is given to JAN as the source of the information. For further information regarding this or any other document provided by JAN, please contact JAN.
**JAN’S Accommodation and Compliance Series**

**Introduction**

JAN's Accommodation and Compliance Series is designed to help employers determine effective accommodations and comply with Title I of the Americans with Disabilities Act (ADA). Each publication in the series addresses a specific medical condition and provides information about the condition, ADA information, accommodation ideas, and resources for additional information.

The Accommodation and Compliance Series is a starting point in the accommodation process and may not address every situation. Accommodations should be made on a case by case basis, considering each employee’s individual limitations and accommodation needs. Employers are encouraged to contact JAN to discuss specific situations in more detail.

For information on assistive technology and other accommodation ideas, visit JAN's Searchable Online Accommodation Resource (SOAR) at [https://AskJAN.org/soar](https://AskJAN.org/soar).

**Information about Sarcoidosis**

Sarcoidosis (SAR-coy-DOH-sis) is an inflammatory disease characterized by granulomas (small rounded outgrowths made up of blood vessels, cells, and connective tissues) that can produce many different symptoms. It is generally a chronic disease, lasting for several years or a lifetime. Some people, however, may have a type that only lasts a few months.

Some people may have no symptoms; others may have symptoms that include: skin, lung, and eye problems; arthritis; myositis; fever; fatigue; and weight loss.

**Sarcoidosis and the Americans with Disabilities Act**

The ADA does not contain a definitive list of medical conditions that constitute disabilities. Instead, the ADA defines a person with a disability as someone who (1) has a physical or mental impairment that substantially limits one or more "major life activities," (2) has a record of such an impairment, or (3) is regarded as having such an impairment. For more information about how to determine whether a person has a disability under the ADA, see [How to Determine Whether a Person Has a Disability under the Americans with Disabilities Act Amendments Act (ADAAA)](https://AskJAN.org/soar).
Accommodating Employees with Sarcoidosis

People with sarcoidosis may develop some of the limitations discussed below, but seldom develop all of them. Also, the degree of limitation will vary among individuals. Be aware that not all people who are aging will need accommodations to perform their jobs and many others may only need a few accommodations. The following is only a sample of the possibilities available. Numerous other accommodation solutions may exist.

Questions to Consider:

1. What limitations is the employee experiencing?
2. How do these limitations affect the employee and the employee’s job performance?
3. What specific job tasks are problematic as a result of these limitations?
4. What accommodations are available to reduce or eliminate these problems? Are all possible resources being used to determine possible accommodations?
5. Once accommodations are in place, would it be useful to meet with the employee to evaluate the effectiveness of the accommodations and to determine whether additional accommodations are needed?
6. Do supervisory personnel and employees need training?

Accommodation Ideas:

Limitations

Decreased Stamina/Fatigue

- Accessories for Scooters
- Aide/Assistant/Attendant
- All-Terrain Scooters
- Anti-fatigue Matting
- Elevating Wheelchairs
- Ergonomic and Pneumatic Tools
- Ergonomic Assessments
- Ergonomic Equipment
- Examination and Procedures Chair
- Flexible Schedule
• Head Support for Wheelchairs
• Job Restructuring
• Low Task Chair
• Mechanic’s Seats and Creepers
• Multi-Purpose Carts
• Periodic Rest Breaks
• Scooters
• Stand-lean Stools
• Stools for Cutting Hair
• Telework, Work from Home, Working Remotely
• Walkers
• Wearable Anti-fatigue Matting
• Wheelchair Accessible Scales
• Wheelchair Mounts
• Wheelchairs
• Worksite Redesign / Modified Workspace

Dietary Needs
• Flexible Schedule
• Mini Refrigerators/ Electric Coolers
• Policy Modification

Low Vision
• Accessible Mobile Phones
• Accessible Telephones
• Apps for Individuals with Vision Impairment
• External Computer Screen Magnification
• Head-mounted Magnifiers
• High Visibility Floor Tape and Paint
• Large Button Phones
• Large Visual Display for Telephone
• Lighted Reading Glasses
• Low Vision Office Supplies
• Magnification (Hand or Stand)
• Optical Character Recognition (OCR) Systems - Scan
• Portable Video/Electronic Magnifiers
• Screen Magnification and Screen Reading Combined
• Screen Magnification Software
• Sewing Aids for Individuals with Vision Impairment
• Stair Tread/Textured Tape
• Tactile Timepieces/Watches
• Talking Alarm Clocks
• Talking Bar Code Scanner/Reader
• Talking Blood Glucose Monitors
• Talking Blood Pressure Monitors
• Talking Cash Register
• Talking Coin Counter/Sorter
• Talking Color Detector
• Talking Copier
• Talking Credit Card Terminal
• Talking Money Identifier
• Talking Scales
• Talking Telephones
• Talking Watches

Photosensitivity

• Alternative Lighting
• Anti-Glare Filters for Fluorescent Lights
• Cubicle Doors, Shields, and Shades
• Fluorescent Light Tube Covers
• Full Spectrum or Natural Lighting Products
• LED Light Filters
• Light Filtering Glasses
• Lighting Gel Filters
• Sun/UV Protective Clothing
• Vehicle Window Tinting and Shades

Respiratory Distress/Breathing Problem
• Air Cleaners & Purifiers
• Air Cleaners - Chemical/Odor Removal
• Air Cleaning Systems
• Air Purifiers for Multiple Chemical Sensitivity
• Alternative Cleaning Supplies
• Augmentative and Alternative Communication (AAC) Device
• Carpet Alternatives, Sealants, and Sustainable Flooring
• Escape Hoods
• Flexible Schedule
• Floor Cleaning/Stripping Products - Chemical Sensitivity
• Low/No Odor Paints and Stains
• Mask Brackets and Frames
• Masks - Respirator
• Masks – General/Chemical/Allergen
• Odor Control
• Outgoing Voice Amplification - Telephone
• Personal Air Cleaner (Neckworn)
• Personal On-Site Paging Devices
• Powered Air Purifying Respirator (PAPR)
• Telework, Work from Home, Working Remotely
• Voice Amplification

Skin Rash/Blisters/Sores
• Alternative Cleaning Supplies
• Augmentative and Alternative Communication (AAC) Device
• Disability Awareness/Etiquette Training
• Job Restructuring
• Odor Control
• Outgoing Voice Amplification - Telephone
• Policy Modification
• Touchless Faucets
• Voice Amplification

Temperature Sensitivity
• Sensitivity to Cold
  • Air Deflectors
  • Cold Resistant Gloves
  • Flexible Schedule
  • Heated Clothing
  • Heated Ergonomic and Computer Products
  • Heated Gloves
  • Telework, Work from Home, Working Remotely
  • Vent Covers
  • Workstation Space Heaters
• Sensitivity to Heat
  • Air Deflectors
  • Cooling Clothing
  • Fans
  • Flexible Schedule
  • Portable Air Conditioners
  • Telework, Work from Home, Working Remotely
  • Vent Covers

Work-Related Functions

Air Quality/Irritants
• Air Cleaners & Purifiers
• Air Cleaners - Chemical/Odor Removal
• Air Cleaning Systems
• Air Purifiers - No Ozone
• Air Purifiers for Multiple Chemical Sensitivity
• Alternative Cleaning Supplies
• Carpet Alternatives, Sealants, and Sustainable Flooring
• Escape Hoods
• Flexible Schedule
• Floor Cleaning/Stripping Products - Chemical Sensitivity
• Low/No Odor Paints and Stains
• Mask Brackets and Frames
• Masks - Respirator
• Masks – General/Chemical/Allergen
• Odor Control
• Personal Air Cleaner (Neckworn)
• Powered Air Purifying Respirator (PAPR)
• Telework, Work from Home, Working Remotely

Parking
• Accessible Parking Space
• Flexible Schedule
• Telework, Work from Home, Working Remotely
• Wheelchairs

Temperature
• Sensitivity to Cold
  • Air Deflectors
  • Cold Resistant Gloves
  • Flexible Schedule
  • Foot Warmers
  • Heated Clothing
  • Heated Ergonomic and Computer Products
  • Heated Gloves
  • Modified Break Schedule
  • Telework, Work from Home, Working Remotely
  • Vent Covers
- Workstation Space Heaters
- Sensitivity to Heat
  - Air Deflectors
  - Cooling Clothing
  - Fans
  - Flexible Schedule
  - Heat Resistant Gloves
  - Modified Break Schedule
  - Personal Visors
  - Telework, Work from Home, Working Remotely
  - Vent Covers
Situations and Solutions:

The following situations and solutions are real-life examples of accommodations that were made by JAN customers. Because accommodations are made on a case-by-case basis, these examples may not be effective for every workplace but give you an idea about the types of accommodations that are possible.

An applicant for a data entry position has sarcoidosis and discloses that it causes her to have a painful sensitivity to light.
The employer agrees to make adjustments to her workspace by allowing the use of desk lamps and other lighting sources that afford a greater degree of individual control should the individual be hired for the position.

An applicant tells his prospective employer that he has to use public transportation to get around.
The individual discloses that he has sarcoidosis. The employer gives the new hire the flexibility use public transportation.

An applicant has bilateral facial paralysis due to their diagnosis of sarcoidosis.
This causes the applicant to have impaired speech and they are applying to work in a position that requires a great deal of communication with co-workers. The employer agrees to allow the individual to communicate with their co-workers electronically via emails, or via written messages during in-person meetings, if they are hired as an accommodation.

An employee with sarcoidosis has voiced concerns with the employer controlled parking lot where employees are allowed to park.
As the lot is set up on a first come first serve basis, the individual normally has to park very far away from the building when he arrives for his shift. Due to his sarcoidosis, the employee has limitations in breathing and quickly develops shortness of breath due to the walk to the building after parking in the morning. The employer agrees to provide the individual with a reserved parking space that was as close to the building as possible as an accommodation.

An employee with sarcoidosis has been having problems when needing to leave her workstation to use the copier due to her legs swelling when they are not elevated.
The employer provides the individual with a small copy machine for her workstation desk as an accommodation.

Products

There are numerous products that can be used to accommodate people with limitations. JAN's Searchable Online Accommodation Resource at https://AskJAN.org/soar is designed to let users explore various accommodation options. Many product vendor lists are accessible through this system; however, JAN provides these lists and many
more that are not available on the Web site upon request. Contact JAN directly if you have specific accommodation situations, are looking for products, need vendor information, or are seeking a referral.

http://www.nationaljewish.org/

National Jewish Health is known worldwide for treatment of patients with respiratory, cardiac, immune and related disorders, and for groundbreaking medical research. Founded in 1899 as a nonprofit hospital, National Jewish Health remains the only facility in the world dedicated exclusively to these disorders. U.S. News & World Report has ranked National Jewish Health as the number one or number two hospital in pulmonology on its Best Hospitals list ever since pulmonology was included in the rankings.

National Organization for Rare Disorders
55 Kenosia Avenue
Danbury, CT 06813-1968
Toll Free: (800) 999-6673
Direct: (203) 744-0100
Fax: (203) 263-9938
http://www.rarediseases.org

NORD is a unique federation of voluntary health organizations dedicated to helping people with rare "orphan" diseases and assisting the organizations that serve them.
NORD is committed to the identification, treatment, and cure of rare disorders through programs of education, advocacy, research, and service.

**National Sarcoidosis Resource Center**  
P.O. Box 1593  
Piscataway, NJ 08855-1593  
Direct: (723) 699-0733  
Fax: (723) 699-0882  
Sandra@nsrc-global.net  
http://www.nsrc-global.org/

The National Sarcoidosis Resource Center is a non-profit organization formed to heighten public awareness and to educate people about this disease, which is often chronic and disabling. It grew out of the need for people with Sarcoidosis to share information and to support each other. The center provides information to people throughout the U.S., Canada, Europe, and elsewhere, and has a registry of over 24,000 patients. The center receives patient referrals from the American Lung Association, NORD, NIH, physicians, and hospitals. Other services include physician referrals, seminars, speakers, and assistance in the development of self-help groups.

**Remedy's Health Communities**  
http://www.healthcommunities.com

Remedy Health Media is America’s fastest growing health information and technology company. We are a leading provider of clinical resources and wellness tools that help millions of patients and caregivers live healthier, more fulfilled lives.

Our mission is to empower patients and caregivers with the information and applications needed to efficiently navigate the healthcare landscape and as a result, to permit better health outcomes through use of our products and services.
Sarcoid Networking Association
12619 S. Wilderness Way
Molalla, OR 97038
Direct: (541) 905-2092
sarcoidinformation@sarcoidosisnetwork.org
http://www.sarcoidosisnetwork.org/

Founded in 1992, the Sarcoid Networking Association brings together support, education and resources to improve the lives of those affected by sarcoidosis.

The BerneMac Foundation
150 N. Michigan Ave.
Suite 2800.
Chicago, IL 60601
